

Interim report to 'Friends of Kagando' Trustees
From Director KARUDEC, Rev. Canon Benson Baguma

May 2007

Dear Rob & Jen

Greetings from Kagando. We do thank God for the gift of the child in your family.

We thank you for the love and care. The mortuary is complete and in operation, the hall is nearing completion, the xray is being installed. Very little remains to be done, the connections done and a test was done and it produced good results except that we still need a few small items that are needed, come the next two weeks, all will be well.

We have received the pre-feasibility study from Jonathan Cox and now started to measure the flow which we hope will give information for the design. Thank you for all the connections and we seek for your continued prayers and support.

Kindly pray for the following.

1. Thanks giving to God for the provision of resources and stability at Kagando and in the nation.
2. That we may be able to finish the debts especially NSSF where the figure is still big.
3. That we may stabilise our income and be able to have drugs and salaries to staff timely.
4. That we will grow in faith and many be drawn to God for the work they see us doing.
5. That we may find favour before God for the work being done and continue to build partnerships to help the work at Kagando.

We bless you and wish you God's favour in all that you plan and do.

Benson
